

HEMOCARE BROCHURE

Visiting care is a great way to receive quality care within the comfort of your own home. From help with getting up in the mornings to respite care for your usual caregiver, GHC can help you live with more independence and control over your day-to-day life. Our calls are charge at a minimum of 1 hr calls.

You can choose the time of day, length of visit and frequency of your home care. Whatever your needs, our visiting care service helps your daily routine run smoothly so you are able to remain in your own home.

VISITING CARE

Having visiting carers can change your life within the home, improving everything from your independence to your mental wellbeing. Gain Healthcare's range of visiting care services mean that you can:

- Receive skilled care in the comfort of your own home.
- Choose the level of care to suit your needs.
- Receive quality care from your team of regular carers who understand your requirements.
- Receive quality care from GHC staff, who are trained to the industry standard and given ongoing support.
- Have a record of care and medication for your peace of mind.
- Know when care visits have been completed with GHC's advanced logging systems.
- Free up family from your care needs so you'll get more quality time together.

BENEFITS OF USING OUR VISITING CARE SERVICE

When daily visits aren't enough, our live-in care service allows you to be well looked after in familiar surroundings. One of our trusted, vetted carers lives with you, or your family member, to provide daily one-to-one care.

Having your carer on hand gives reassurance and peace of mind to you and your household. We want you to be able to keep up your favourite daily routines, live with your pet or stay with your family for as long as possible.

With pricing starting from £1100 Live-in care could be the right solution for you. Find out more about our live-in care below

LIVE-IN CARE

Live-in care can be a cost-effective alternative to care homes. You or your loved one receives high-quality care from our carefully selected carers and all within your own home. Some of the benefits include:

- Stay in the comfort of your own home.
- Cost effective one-to-one care.
- Keep your independence and control of day-to-day life.
- Free up family from domestic tasks and get more quality time together.
- Peace of mind for you and your family.
- Stay with your pets.
- Live in the heart of your own community.
- Gain Healthcare has the capacity to provide Nurses and Care assistants in the community. This includes Hospital Discharge, Palliative Care and any other at home complex needs care.
- Gain Healthcare is registered and regulated by the CQC.
- Companionship.
